PARASITOLOGY TODAY

REFERENCE EDITION

Volume 6

1990

CONTENTS

JANUARY

News and Comment
This Month 1
The Evolutionary Biology of Parasitism, *by A. E. Keymer and A. F. Read* 2

Reviews
Laboratory Models for Research *in vivo* and *in vitro* on Malaria Parasites of Mammals: Current Status, *by B. Mons and R. E. Sinden* 3
Waterborne Cryptosporidiosis, *by H. V. Smith and J. B. Rose* 8

Letters
Salmon Farming in Scotland, *by J. S. Buchanan* 12
The Benefits of Fish Vaccines, *by R. Wardle* 13
Reply, *by Caroline Ash* 13
Banished Bugs, *by I. Maudlin* 13
Toxoplasmosis in AIDS, *by J. Hay* 13
Reply, *by D. N. J. Lockwood and J. N. Weber* 14

Focus
The Use of Experimental Artefacts in African Trypanosome Research, *by C. M. R. Turner* 14
A Way Round the 'Real Difficulties' of Malaria Sporozoite Vaccine Development, *by F. Sinigaglia and J. R. L. Pink* 17
Interrupted Feeding of Blood-sucking Insects: Causes and Effects, *by C. R. Davies* 19
Trypanosomatid Parasites of Plants *(Phytomonas), by E. P. Camargo, P. Kastelein and I. Roitman* 22
Intestinal Capillariasis, *by J. H. Cross* 26

Book Review
Strongyloidiasis: A Major Roundworm Infection of Man, *by J. H. Cross* 28

FEBRUARY

News and Comment
This Month 29
Latin American Workshop for the Evaluation of DNA Probes for Leishmaniasis, *by L. A. Labrada and D. S. Smith* 30

Reviews
Transgenic Mosquitoes: A Future Vector Control Strategy? *by J. Crampton, A. Morris, G. Lycett, A. Warren and P. Eggleston* 31

Letters
Immune Elimination of Schistosomes, *by S. James* 37
Reply, *by R. A. Wilson and P. S. Coulson* 37
Japanese Encephalitis, *by C. J. Leake* 38
Reply, *by A. Crump* 38
Populations at Risk, *by R. W. Ashford* 39
Application of Remote Sensing, *by R. Bos* 39
Reply, *by M. Hugh-Jones* 39
Malaria Incidence, *by E. G. Loyola, M. H. Rodríguez, L. Gonzalez-Ceron and M. A. Vaca-Marin* 40
Historic Photograph, *by K. Janitschke* 40

Viewpoints
Schistosome Surface Antigens: Developmental Expression and Immunological Function, *by A. J. G. Simpson* 40
Schistosome Carbohydrates, *by D. W. Dunne* 45

Focus
The Cytoskeleton of Trypanosomes, *by T. Seebeck, A. Hemphill and D. Lawson* 49
The Giardins of *Giardia lamblia*: Genes and Proteins with Promise, *by D. A. Peattie* 52

Techniques
Ribosomal RNA: Nature's Own Polymerase-amplified Target for Diagnosis, *by A. P. Waters and T. F. McCutchan* 56

Book Review
Hydatidosis: Veterinary Perspectives and Annotated Bibliography, *by A. Nieto* 59

Books Received 59

MARCH

News and Comment
This Month 61
International Seminar on Amoebiasis, *by W. A. Petri, Jr* 62
Polymorphism in the Circumsporozoite Protein and Anti-sporozoite Malaria Vaccines, *by D. E. Arnot* 64

Reviews
The Epidemiology of Schistosome Infections of Snails: Taking the Theory into the Field, *by M. E. J. Woolhouse and S. K. Chandiwana* 65
Genetic Exchange in *Trypanosoma brucei, by A. Tait and C. M. R. Turner* 70

Letters
Polymorphism and Malaria Vaccines, *by M. Lockyer* 76
Pyrimethamine Resistant? *by M. Riscoe* 76

Focus
Chloroquine as Intercalator: a Hypothesis Revived, *by S. R. Meshnick* 77
The Procyclin Coat of African Trypanosomes (or the Not-so-naked Trypanosome), *by I. Roditi and T. W. Pearson* 79
Onchocerciasis (River Blindness) – Can it be Eradicated? *by B. O. L. Duke* 82

Techniques
Pulse Radiolysis, Free Radicals and Antiparasitic Drugs, *by R. H. Bisby* 84

Book Reviews
Foundations of Parasitology (4th edn), *by J. D. Smyth* 89
Protozoa and Other Protists, *by J. R. Baker* 89

APRIL

News
This Month 91
Helminths: Primary Models for Comparative Biochemistry, *by H. J. Saz* 92

Review
Helminths as Heirlooms and Souvenirs: a Review of New World Paleoparasitology, *by M. M. Kliks* 93

Techniques
Climate, Vegetation and the Distribution of *Rhipicephalus appendiculatus* in Africa, *by B. D. Perry, P. Lessard, R. A. I. Norval, K. Kundert and R. Kruska* 100
Diagnosis of Chagas Disease Using Recombinant DNA Technology, *by A. C. C. Frasch and M. B. Reyes* 137

Focus
Special Issue: **BENZIMIDAZOLE ANTHELMINTICS** 105–136
Benzimidazoles in a Wormy World, *by R. J. Horton* 106
The Synthesis and Chemistry of Certain Anthelmintic Benzimidazoles, *by L. B. Townsend and D. S. Wise* 107
Mode of Action of Benzimidazoles, *by E. Lacey* 112
The Metabolism of Benzimidazole Anthelmintics, *by D. W. Gottschall, V. J. Theodorides and R. Wang* 115
6 page diagram 116
The Molecular Nature of Benzimidazole Resistance in Helminths, *by M. H. Roos* 125
Resistance in Nematode Parasites of Livestock to the Benzimidazole Anthelmintics, *by P. J. Waller* 127
Benzimidazoles: Veterinary Uses, *by W. C. Campbell* 130
Use of Benzimidazole Chemotherapy in Human Helminthiasis: Indications and Efficacy, *by G. C. Cook* 133
The Wise Eye of Hindsight, *by D. A. Denham* 136

Book Review
The Physiology and Biochemistry of Cestodes, *by P. W. Pappas* 139

MAY

News and Comment
This Month 141
Schistosome Surface Protein Anchors, *by J. C. Havercroft* 142

Reviews
Ascariasis in Nigeria, *by C. V. Holland and S. O. Asaolu* 143
Entomopathogenic Rhabditid Nematodes and Pest Control, *by W. M. Hominick* 148

Letters
Rosette Formation? *by R. Ramasamy* 152
Reply, *by M. Wahlgren and J. Carlson* 153
Filariasis Discovery, *by P. Wenk* 153
Reply, *by B. R. Laurence* 153

Focus
An Immunological and Biochemical Comparison of Hookworm Species, *by D. I. Pritchard, P. G. McKean and G. A. Schad* 154
The Role of Vector Saliva in Transmission of Arthropod-Borne Disease, *by R. G. Titus and J. M. C. Ribeiro* 157
Why do Schistosomes have Separate Sexes? *by P. F. Basch* 160
A Role for Pore-forming Proteins in the Pathogenesis by Parasites? *by D. M. Ojcius and J. Ding-E Young* 163

Applications
Human Schistosomiasis in India? *by V. R. Southgate and M. C. Agrawal* 166

Book Reviews
The Origins of Human Disease, *by B. R. Laurence* 168
The Macmillan Dictionary of Immunology, *by M. W. Kennedy* 168

Books Received 169

JUNE

News and Comment
This Month 171
Calcium Binding Proteins in Schistosomes, *by J. A. Fuhrman* 172
Water Resources Development Policies, Environmental Management and Human Health, *by R. Bos* 173

Reviews
Immune Mechanisms in Trematode–Snail Interactions, *by W. P. W. van der Knaap and E. S. Loker* 175
Evasion Strategies of *Leishmania* Parasites, *by C. Bogdan, M. Röllinghoff and W. Solbach* 183

Letters
Populations at Risk, *by B. M. Greenwood* 188
Interrupted Feeding of Vectors, *by R. Killick-Kendrick and D. H. Molyneux* 188
Reply, *by C. R. Davies* 189

Focus
The Potential of *Capillaria hepatica* to Control Mouse Plagues, *by G. R. Singleton and H. I. McCallum* 190
Trichinella spiralis: The Worm That Would Be Virus, *by D. D. Despommier* 193
***Plasmodium* and the Infected Erythrocyte:**
Calcium Metabolism in Malaria-Infected Erythrocytes, *by S. Krishna and L. Squire-Pollard* 196

Book Review
Diseases of Nematodes, Volumes I and II, *by W. M. Hominick* 199

JULY

News and Comment
This Month 201
BSP Malaria Meeting, February 1990, *by C. Facer, M. Lockyer, G. Mitchell, M. Pudney and D. Walliker* 202
Biological Control of Pests and Vectors: Pros and Cons, *by I. Popiel and W. Olkowski* 205
Molecular Biological Approaches Towards Immunodiagnosis of Filariasis, *by M. Yazdanbakhsh* 207

ICOPA VII
Parasitology in France:
Future Trends, *by A. Capron* 208
Some Aspects of the Present, *by O. Bain, D. Camus and J. Prod'hon* 209
The Past, *by I. Humphery-Smith, J. Théodoridès, L. Touratier and A-M. Le-Flohic* 217

Review
***Plasmodium* and The Infected Erythrocyte:**
Glucose Transport in Malaria-Infected Erythrocytes, *by K. Tanabe* 225

Letters
Chloroquine as Intercalator: Should This Hypothesis Be Revived? *by H. Ginsburg* 230
Reply, *by S. Meshnick* 230

Focus
Reproductive Strategies and Disease Susceptibility: an Evolutionary Viewpoint, *by M. Zuk* 231
Habitat Selection by Helminths: a Hypothesis, *by M. V. K. Sukhdeo* 234

Applications
Biological Methods for the Control of Freshwater Snails, *by H. Madsen* 237

Book Reviews
Current Concepts in Parasitology, *by F. E. G. Cox* 241
Antigen-presenting Cells, *by G. H. Mitchell* 241
Biochemical Adaptation in Parasites, *by J. Barrett* 242

AUGUST

News and Comment
This Month 243
Current Concepts in Stage-Regulated Gene Expression in Kinetoplastida, *by M. Parsons* 244
Trypanosomatid Transfection: Stable Introduction of DNA into Protozoa, *by D. F. Smith* 245

Review
***Plasmodium* and the Infected Erythrocyte:**
Sequestration in *Plasmodium falciparum* Malaria: Sticky Cells and Sticky Problems, *by A. R. Berendt, D. J. P. Ferguson and C. I. Newbold* 247

Viewpoints
DNA-binding Antibodies and Parasitic Diseases, *by A. O. Wozencraft and N. A. Staines* 254
SLE and Malaria: Another Look at an Old Idea, *by G. A. Butcher and I. A. Clark* 259

Focus
Mechanisms Underlying Immunosuppression Induced by *Trypanosoma cruzi*, *by F. Kierszenbaum and M. B. Sztein* 261
The Ecology of Lizard Malaria, *by J. J. Schall* 264
Cysteine Proteinases of Parasitic Protozoa, *by M. J. North, J. C. Mottram and G. H. Coombs* 270

Letters
Insecticide Resistance, *by J. Lines* 275
Schistosome Surface Protein Anchors, *by S. Y. Sauma and M. Strand* 275

SEPTEMBER

News and Comment
This Month 277
The Evolution, Ecological Effects and Health Impact of Parasites, *by P. Schmid-Hempel and M. Tanner* 278
Helminths and Hydatid Disease 280
Are Wormy People Parasite Prone or Just Unlucky? *by H. L. Guyatt and D. A. P. Bundy* 282

Obituary
Ralph Arthur Neal, 1925–1990, *by L. Goodwin* 283

Reviews
Regulatory Peptides in Parasitic Platyhelminths, *by D. W. Halton, I. Fairweather, C. Shaw and C. F. Johnston* 284
The Chemical Control of Livestock Parasites: Problems and Alternatives, *by L. Strong and R. Wall* 291

Letters
Male Schistosomes: More Than Just Muscle? *by A. F. Read and S. Nee* 297
Reply, *by P. F. Basch* 297
Single Sex Schistosomes and Chemical Messengers, *by S. W. G. Smith and L. H. Chappell* 297
Reply, *by P. F. Basch* 298

Focus
The New Trypanosomatid Genetics, *by V. Bellofatto* 299
The Role of Nitrogen Oxides as Effector Molecules of Parasite Killing, *by S. L. James and J. B. Hibbs, Jr* 303

Techniques
Confocal Scanning Laser Microscopy and Helminth Neuroanatomy, *by C. F. Johnston, C. Shaw, D. W. Halton and I. Fairweather* 305

Book Reviews
Parasite Communities: Patterns and Processes, *by R. D. Gregory* 308
Frontiers of Infectious Diseases: New Strategies in Parasitology, *by E. Handman* 309
Life Among the Scientists, *by L. Goodwin* 309
Biochemistry and Molecular Biology of "Anaerobic" Protozoa, *by W. Gutteridge* 310

OCTOBER

News and Comment
This Month 311
Molecular Parasitology in Taiwan, *by C. C. Wang* 312
Actions for the Control of Soil-transmitted Helminthiases in Nigeria, *by D. W. T. Crompton* 313
Immune-facilitated Drug Action in Schistosomiasis, *by G. F. Mitchell* 315

Viewpoints
***Plasmodium* and the Infected Erythrocyte:**
Antigens on the *Plasmodium falciparum* Infected Erythrocyte Surface are not Parasite Derived, *by I. W. Sherman and E. Winograd* 317
Antigens on the *Plasmodium falciparum* Infected Erythrocyte Surface are Parasite Derived: A Reply, *by C. I. Newbold and K. Marsh* 320

Reviews
Anisakis – from the Platter to the Microfuge, *by J. A. Sakanari* 323
A Comparison of *Trans*-RNA Splicing in Trypanosomes and Nematodes, *by J. E. Donelson and W. Zeng* 327

Focus
Antimalarial Drugs: Is the Lysosomotropic Hypothesis Still Valid? *by H. Ginsburg* 334
Peter Abildgaard: Forgotten Pioneer of Parasitology, *by J. D. Smyth* 337

Applications
National Reporting of Leishmaniasis: The Brazilian Experience, *by J. B. Vieira, M. M. Lacerda and P. D. Marsden* 339

NOVEMBER

News and Comment
This Month 341
Trypanosome Diversity in Lambwe Valley, Kenya – Sex or Selection? *by W. Gibson* 342
Interpreting Parasite Host Location Behaviour, *by A. W. Pike* 343

Reviews
Intraspecific Variation in Parasites – What is a Strain? *by R. C. A. Thompson and A. J. Lymbery* 345
Epidemiology of Honey Bee Parasites, *by L. A. Royce and P. A. Rossignol* 348

Letters
Trypanosome Diversity in Lambwe Valley, Kenya – Sex or Selection? Reply, *by S. Mihok and L. H. Otieno* 353
In Defence of Behavioural Host Location, *by R. Poulin, M. A. Curtis and M. E. Rau* 353

Focus
Leaky Livers, Portal Shunting and Immunity to Schistosomes, *by R. A. Wilson* 354
Starlings as Herbalists: Countering Parasites and Pathogens, *by L. Clark* 358

Applications
The Peculiarities of *Blastocrithidia triatomae, by G. A. Schaub, D. Reduth and M. Pudney* 361

Techniques
Cloning of Schistosomes, *by J. Jourdane* 363

Book Reviews
Protozoologie Médicale Comparée, *by W. Peters* 365
Eosinophils in Asthma, *by B. R. Champion* 366
Green Development: Environment and Sustainability in the Third World, *by A. O. Wozencraft* 366
Sarcocystosis of Animals and Man, *by J. K. Frenkel* 367

DECEMBER

News and Comment
This Month 369
Perspectives on the Control of *Taenia solium*, *by Z. S. Pawlowski* 371
Plasmodium falciparum Surface Antigen p190: Prevalence of a Nonrepetitive Allele in Humans, *by U. Certa* 373
Resistance to Parasitic Nematodes – How is the MHC Involved? *by M. W. Kennedy* 374

Reviews
Intestinal Protozoa and Epithelial Cell Kinetics, Structure and Function, *by A. Buret, D. G. Gall, P. N. Nation and M. E. Olson* 375
Parasitoids, Polydnaviruses and Endosymbiosis, *by J. B. Whitfield* 381

Focus
Ecdysteroids in Nematodes, *by G. C. Barker and H. H. Rees* 384
Folate and Cobalamin Metabolism in *Plasmodium falciparum*, *by J. Krungkrai, H. K. Webster and Y. Yuthavong* 388

Letters
The Major Merozoite Surface Antigen (MSA 1) of *Plasmodium falciparum*, *by A. Scherf and E. Kimura* 391
Prehistoric Parasitism in Tennessee, *by C.T. Faulkner and S. Patton* 392

Techniques
Cercarial Kissing Marks – No Superficial Make-up, *by E. Linder* 393

Book Review
Pathophysiology of Endoparasitic Infection Compared with Ectoparasitic Infestation and Microbial Infection, *by G. A. Castro* 395

Erratum
Parasitology in France: The Past (July, pp 217–224), *by I. Humphery-Smith* et al. 365
